Professional Background

Daniela is an accomplished Senior Nurse with 12 years of experience. Since 2015, she has worked in Royal Buckinghamshire Hospital, initially as a Ward Manager and Admission & Discharge Coordinator and, since 2020, as the Head of Nursing for Neurological Rehabilitation. Within each of the roles, Daniela has held responsibility for ensuring the safety, quality and efficiency of nursing care via robust clinical leadership and management. She is accountable for planning admissions and discharges, liaising with social workers, GPs and community nurses as required. Daniela is responsible for conducting thorough nursing assessments, including risk assessments such as those regarding falls and tissue viability. She is also accountable for care planning, undertaking a comprehensive range of nursing tasks and educating and advising patients on health promotion and illness prevention. Daniela conducts routine investigations and care procedures, including medicine administration. Daniela has gained extensive experience in caring for individuals with spinal cord injuries, acquired brain injuries and complex needs, including significant experience providing tracheostomy care and ventilatory care. She also delivers a wide range of training and teaching to staff across the hospital. in her career, Daniela worked as a Staff Nurse across Ellesmere House, Coombe Lodge and Stoke Mandeville Hospital. Within these roles, Daniela delivered high-quality nursing to a diverse range of patients, including accountability for assessment, care planning, care supervision, administering medications, maintaining records, responding to emergencies and providing patient education. During this time, Daniela gained extensive experience working with dementia patients.
